

# ROBUR Specialist & Bespoke Equipment

ROBUR specialist and bespoke equipment is renowned for both its quality and versatility. Each model is designed to meet individual customer requirements with a wide range of size, capacity and finish options.

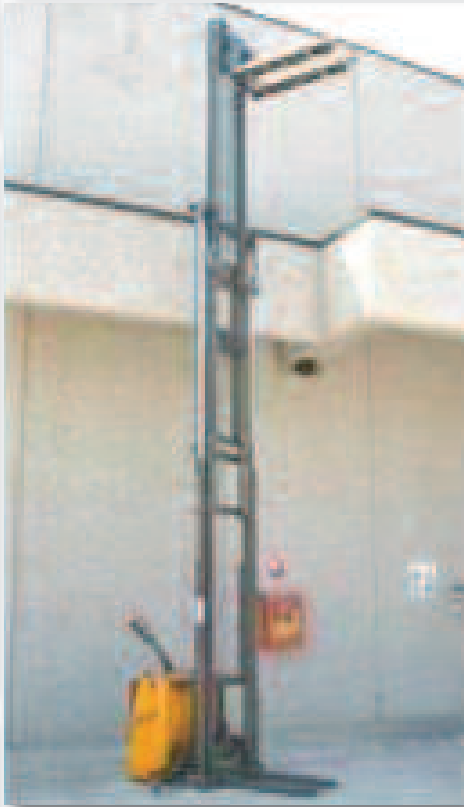

Manufactured using standard components, our customers can have an individually designed model, exactly suited to their needs without the high cost normally associated with such bespoke equipment.

## Solutions include:

- Heavy duty powered pallet trucks - capacities to 24,000kg
- Paper reel & roll handlers – diameters to 2000mm, 3000mm forks, capacities to 20,000kg,
- Powered stackers - capacities up to 6000kg, lift heights to 5800mm
- Four-way directional long load trucks – capacities to 4000kg
- Pedestrian/ride-on units
- Press tool handlers - capacities up to 10,000kg
- Aircraft container handlers – capacities to 6000kg
- Cold store specifications
- Stainless steel stackers & pallet trucks, ideal for food and chemical environments
- Explosion-proof stackers & pallet trucks for hazardous locations
